

4G INTERNET KIT

Trade Show
INTERNET

Why Trade Show Internet?

Trade Show Internet provides comprehensive Internet connectivity solutions for conferences, expos, brand activations, experiential pop-ups, and corporate events. As an exhibit house, agency, trade show exhibitor or meeting planner, you can use our 4G Internet Kits inside any convention center or hotel and even outside as a powerful, stand-alone WiFi solution. The kit is completely self-contained -- simply set it up in minutes, connect your laptops, tablets, printers, kiosks and other mobile devices and skip the outrageous in-house Internet fees.

KIT INCLUDES

CradlePoint Router

Verizon 4G USB Modem

AT&T 4G USB Modem

Network Cable

4G INTERNET KIT

SUPPORTED DEVICES

Network Printers

Tablets and Mobile Devices

Kiosks

Laptops

Ways To Use Your 4G Internet Kit

- ✓ Increase visitor engagement anywhere with your online software and website
- ✓ Accelerate your sales cycle by capturing and qualifying new leads instantly
- ✓ Generate revenue by processing orders online from any location
- ✓ Bolster productivity by connecting network printers and other wireless devices
- ✓ Connect visitors during meetings or by creating a web café
- ✓ Stay in touch with clients via your CRM and email in the booth
- ✓ Save money by using your 4G Internet Kit in your hotel room to avoid the hotel's Internet fees

How Does It Work?

Follow the included *Quick Start Guide* to plug in your router and modem. Easy setup in 2 minutes with no software or downloads

Connect all of your wired and wireless (WiFi) devices

Type in the password/security key listed on the router label

Check your email, surf the web, stream video and demo

How To Order

Order Online www.tradeshowinternet.com
or by phone (866) 385-1504

FedEx delivery to your hotel or local office one business day prior to your event with a label for FedEx Ground pre-paid return. *Connectivity Concierge* service is also available with on-site delivery, setup, and pick-up.

Technical support available 24x7 at (866) 385-1504 x3

"The system was waiting at the bell desk upon arrival at the hotel, set-up was a breeze, the connection speed worked well (even when all three of us were accessing), and the return was a snap using the pre-paid label. If your company is seeking to avoid the outrageous Internet fees that are often charged at convention centers and hotels, Trade Show Internet is an option to consider."
